

Compensation Report 2021-22 Academic Year

This report covers all those who hold positions which have annualized salaries in excess of \$80,000.

Any bonuses, severance payments (other than those paid to faculty members), and monetary benefits paid to employees during the academic year (July 1 through June 30) are added to salaries to determine compensation for placement in the ranges that follow. In the event that the incumbent of a position changed during the year, the information is provided in respect of the incumbent who was in the position at the end of the year.

Deans and a number of faculty members who have research, travel and entertainment budgets can convert those budgets in whole or in part to income; amounts so converted are not taken into account below.
